

HomeWorks

CURATING ELEGANT EXPERIENCES FOR **LUXURY LIFESTYLES**

OUR STORY

For decades, Lutron has been at the forefront of lighting control and automated shades. With distinctly crafted design and innovative technology, everything we create enhances the atmosphere of a personal space.

Today, Lutron channels the power of performance and turns technology into a timeless solution for the most discerning lifestyles and spaces. Homeworks is the illuminating force behind the scene to make personal moments shine bright.

Always forward thinking, Lutron has added Ketra, the most innovative light source in the world, to our offerings. This expands our HomeWorks portfolio and allows us to build the complete luxury home experience.

LIGHT JUST RIGHT

HomeWorks delivers a seamless whole-home experience. Beautiful light. Intelligent shades. Powerful controls. All working harmoniously.

EXCEPTIONAL AESTHETICS

Complement interior décor with sophisticated, intuitive controls, and recall your favorite scene with a single button press.

Palladiom keypads are available in a variety of styles and finishes, and are customizable to fit your needs.

A TRANSFORMATIVE ENVIRONMENT

Experience high quality, dynamic light that shifts in accordance with sunlight, your mood or the task at hand. Ketra delivers an unlimited palette of personalized light that is yours to design, control, and enjoy.

REFINED **DAYLIGHT** CONTROL

Energize your mornings with natural light, while ensuring privacy when you want it. Quiet, automated shades respond at the touch of a button or through a personalized schedule.

Our Palladiom shading solutions feature an expertly curated fabric collection to complement your interior design.

SMART LIVING

Your HomeWorks system can automatically know when you come and go. You can also adjust lights, shades, and temperature when you are away—around the block or around the world—so you can always stay in control of your home.

THE POWER OF VOICE

Even when your hands are full, set the mood or activate lighting that is the perfect assistant. At your command, downlights come on. Shades open. Your favorite playlist fills the background.

ALWAYS DYNAMIC

Technology evolves quickly and you require a system that can adapt to your needs and tastes over time. HomeWorks offers upgrades that keep your system current and ensure that it will continue to deliver the one-of-a-kind experiences you expect in your home.

Enhanced features include:

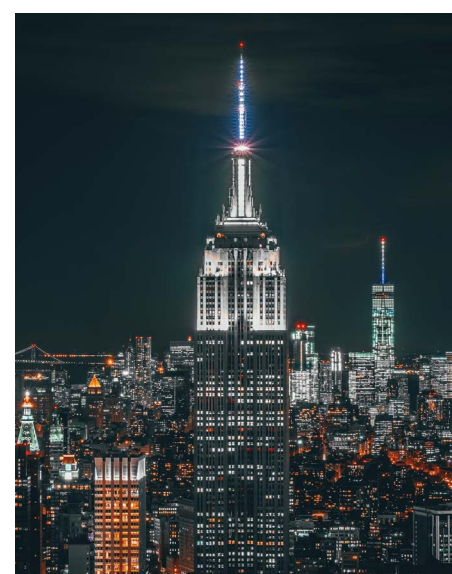

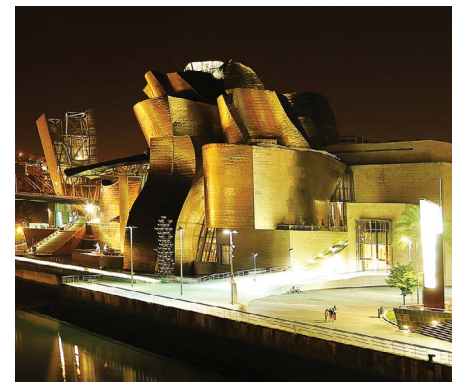

- advanced dimming technology
- voice and audio control
- more keypad styles
- new shade options
- remote monitoring
- an enriched app experience

In addition, upgrading products is simple. HomeWorks offers drop-in replacement products, which means no new holes in walls and no noise, dust, or inconvenience.

THE LUTRON DIFFERENCE

Our innovation, quality, and service remain the foundations of our company. When you choose Lutron, you can trust that your system, with its powerful controls, intelligent shades, and beautiful light, will work as it's supposed to, every time.

Because we have the highest confidence in the quality of our products, HomeWorks is backed by an 8-year warranty. Our solutions are also backed by industry-best 24/7 technical support, so you can always reach us.

PRESTIGIOUS PROJECTS

Our lighting control solutions aren't limited to residential projects. You'll also find us in commercial spaces around the world. From museums and restaurants to hotels and retailers, we provide the right light, helping to enrich the guest experience.
